REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: As applicant has pointed out in the Appeal Brief, the reference to E.P. '727 expressly taught away from the use of VeoVa10 as the co monomer in the operation and expressed that a homopolymer with a higher Tg should be used in the operation (VeoVa9) and therefore while the reference did express that a stabilizer would have been added in a similar composition to that of Japanese Patent '705, one viewing the prior art as a whole would have been led away from the use of the specific VeoVa 10 in Japanese Patent '705. Additionally, there is no express suggestion in Japanese Patent '705 for the use of a stabilizer and the polymer appears to be stable on its own. Thus, there is no reason to select the specific stabilizer of E.P. '727 in Japanese Patent '705 as addressed by applicant in the appeal brief.

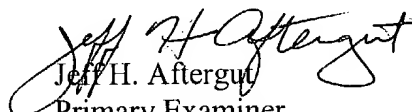

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeff H. Aftergut whose telephone number is 571-272-1212. The examiner can normally be reached on Monday-Friday 7:15-345 pm.
